CHAMBERLAIN GRAND COUNCILLOR

La Crosse Man Will Undoubtedly be Elected Tomorrow  
---Milwaukee, Appleton and Sparta are After  
Next Grand Council

Fair weather greeted the delegates to the U. C. T. convention here this morning. At one o'clock about 300 delegates had registered at headquarters, in The Stoddard, where R. A. Worth is in charge. Enthusiasm marked the procession of delegates that poured in from all trains during the night and morning, twenty-three councils being represented.

Three bands, the splendid aggregation from Virgona, the younger but talented musicians from Sparta and the effective band from Bangor, paraded the streets at the head of various delegations, dispensing music, while Dana and Kreutz lent, their voices to the general sound of the gala day.

With commendable loyalty the merchants and business men of La Crosse had decorated their stores, and the streets in all directions from the Arch of Welcome reflected the holiday spirit that invaded the city with the travelers.

Brindley Jollies Them.

The morning session was called to order by Grand Councillor Maynard, of Oshkosh. In the absence of Mayor Torrance, Judge John Brindley delivered the opening address, and captivated his hearers with his usual jubilant spirits. He accused the home delegates with having selected him because, after the usual promise due in a speech of welcome, that they have the freedom of the city, he, the speaker, would be committed by his words and as the only judge with a criminal jurisdiction, would be estopped from convicting them for any conduct they might care to indulge in. In more serious tone, the judge delivered a delightful address.

Morning Session Routine.

The remainder of the morning session was devoted to routine work, the grand council holding an executive session. The usual committees on resolutions and conventional business affairs were appointed, and adjournment was taken until 1 o'clock.

Afternoon Session.

In the afternoon session there occurred further routine work. The reports of the committees appointed in the morning were read during the afternoon, but none of the resolutions were made public. An interesting feature was a letter from Congressman John J. Esch, received this morning by D. S. Fairbairn, in which Mr. Esch discussed the progress of the Esch bill making salesmen preferred creditors in bankruptcy cases; the letter created considerable enthusiasm, its tone being distinctly optimistic. The letter follows:

The Esch Letter.

June 6, 1906.

D. S. Fairbairn,  
Secretary U. C. T.,  
La Crosse, Wis.,  
My Dear Sir:—

Your letter of June 4th asking me for the status of the so-called Esch

bill amending the National Bankruptcy Act so as to give traveling and city salesmen the rights of preferential creditors, duly received.

In reply I beg leave to state that the bill passed the house about six weeks ago and is now pending in the senate committee on judiciary. I had a conference this week with Senators Nelson, Foraker and Spooner, members of the senate committee on judiciary having the bill in charge. They informed me that it was hoped to report the bill out next Monday with certain other amendments to the Bankruptcy Act added thereto and that there was no doubt but that favorable action could be secured in the senate.

In view of the strong sentiment in the house favorable to a repeal of the entire Bankruptcy Act I expressed fear of adding to our bill other amendments which might arouse still further antagonism; my preference being to let our bill go through as it came from the house and thus avoid further complications. It is possible, however, that the senate committee will only add such other amendments to the Bankruptcy Act as will be of such general merit as to commend themselves to both houses and thus insure favorable action. If the bill is reported favorably Monday by the senate committee I will advise you by telegram. I feel confident that we shall attain our end.

Wishing the U. C. T. convention which convenes in La Crosse this week a most delightful and profitable occasion, I remain,  
Yours very truly,  
(Signed) JOHN J. ESCH.

The Governor Arrives.

Governor Davidson, contrary to expectations, arrived on the noon Northwestern train. The governor had advised the Travelers that he would be unable to be here, a fact owing to which there was no band at the train. But a few people learned of his coming; he was escorted with his customary lack of ostentation to the Stoddard, where he dined at his leisure. He will take part in the parade at 4 o'clock, and will remain at the Stoddard until tomorrow noon.

The Women Meet.

At Masonic Temple today the ladies are holding forth. Dana's orchestra is assisting in the entertainment, the wives and women relatives of the delegates and resident members having arranged this pleasant method of meeting and becoming acquainted. There is the usual refreshment budget, with tea enough to go around.

On the Water Wagon.

An amusing episode occurred this morning when six delegates comprising a party that presented that physical variety that is the spice of life, after what is presumed to have been a strenuous night of it, mounted a

- 9:00 a. m.—Business session Grand Council.
- 10:00 a. m.—Ladies' auto ride, start from the Hotel Stoddard.

city sprinkler and paraded the streets, "on the water wagon."

Another Joke.

Laughter was aroused at headquarters, The Stoddard, by an incident echoing from the last grand council, at Oshkosh. This morning a gentleman entered the headquarters with a brilliant umbrella that was the La Crosse banner in the fight for the honor of being convention city over Oshkosh last year. "I stole this last year," he said, "and I told the boys I would return it to the owner at La Crosse this year. I told them this before the vote was taken, so you see I guessed right as to the honor. I want to make good by returning the umbrella." The gentleman did not know the name of the La Crosse man from whom he had stolen the trophy, nor would he tell his name. He left headquarters amid a hearty laugh. After he had gone, Mr. Worth said to a Tribune reporter, "You see there is one honest man in Oshkosh." "Yes," laconically remarked a quiet looking stranger just leaving the door, "only he's from Milwaukee."

The New Officers.

The election of officers and selection of the city to entertain the next

grand council will probably take place tomorrow morning.

It is conceded that Charles Chamberlain of this city will head the state association next year with the office of grand councillor, while the other officers will be advanced one rank respectively. There remains the selection of one new man to fill the schedule of officers, but while there are numerous candidates, no prediction as to the outcome could be secured from an official source.

Next Grand Council.

Up to noon today, but three cities had announced themselves as candidates for the next grand council meeting; they are Sparta, Appleton and Milwaukee. Sparta is here with a band and a splendid delegation, but even among its friends here there was a sentiment that Appleton or Milwaukee has the better chance for the honor.

The Grand Parade.

One of the most magnificent parades ever witnessed in the city of La Crosse was that which passed under the beautiful triumphal arch on Main street at 4 o'clock this afternoon.

Governor Davidson was seen at the Stoddard today, and expressed himself as pleased with the political outlook. He said he had attended a big meeting in Blair last evening, and could not have asked a better reception of more promising conditions.

Upon his unexpected arrival here today, the governor became the center of attention. He consented to take part in the parade, but when asked if he would accept a private carriage, replied, "No, I would rather ride with the boys."

Governor Davidson does not expect to deliver an address here. He will remain at the Stoddard until noon tomorrow. There were many callers there today, and friends of the governor say he will receive throngs of visitors during his stay in the city.

(Scripps-McRae Dispatch.)  
VIENNA, June 8.—Dreher, driving a ninety-horse power Mercedes arrived first in the Herokomer automobile race from Frankfurt. Prince Henry arrived at 11:30 an hour later. Pierce, American, finished at 12:13. A hundred and fifteen of 156 starters finished. One driver killed a peasant in the run.

HORNE FIERCELY ATTACKED

A Defendant Said to Have

(Scripps-McRae Dispatch.)  
CHICAGO, June 8.—It is estimated the packers will be forced to spend a million stemming the indignation on account of the recent exposure.

"Advertising contracts" are being made with newspapers. Already \$850,000 has been spent here in page-advertisements asking the public to visit their plants.

This morning advertisements appeared in eastern papers.

Local publications which attacked the packers were not given the advertisements.

Has Grave Charges.

WASHINGTON, June 8.—The president sent to the house agriculture committee two reports of the inspection of the Chicago packing houses by the agricultural department before the Neill-Reynolds investigation.

The president in a letter comments on the immediate and extraordinary improvement in the packing house conditions following the Neill-Reynolds report.

The letter states the investigation of "packingtown" is unfinished and he is not prepared to make a final statement regarding the complaints against the bureau of animal industry or the "graver charges in connection with the adulteration of meat products, as well as other matters."

He quotes a letter from a Chicago friend who describes the packers' haste in cleaning up as "amusing if it were not so nearly tragic."

Reynolds' Story.

WASHINGTON, June 8.—James B. Reynolds testified before the house agriculture committee stating the matter in the Neill-Reynolds report as observed by him.

Chairman Wadsworth denied the published reports that he (Wadsworth) was friendly to the packers in asking questions yesterday. He said he wanted only to find out the truth. Reynolds said his inspection for foreign trade was satisfactory, but there was always that disagreeable odor about the Chicago packing houses which the New York houses do not have.

The examination of the promoters of The Mexican Plantation company, under the discovery statute, was begun before Court Commissioner Alfred Harrison yesterday, and was continued today. C. E. Seiler and William Funke, of the defendants, were on the stand.

The examination was conducted for the defendants by Attorney Bunge, while the inquisitors were represented by Higbee & Higbee. The scope of the examination was voluntarily limited to the nature of the business transactions.

The testimony showed that, in the first place, certain of the promoters had bought 2,000 acres of Mexican land for \$8,000 dollars, but that as these were Mexican dollars, the amount actually paid was about \$2,000 American money.

As the next step the promoters formed an organization in which the original operators retained an interest, taking the property over at \$20,000, of which sum \$12,000 was actually paid over. The Beckes were to have paid the balance.

Thereafter, the promoters organized The Mexican Development company, securing \$90,000 for the transfer of the original 2,000 acres.

The final step was the reorganization that gave birth to The Mexican Plantation company. Again the 2,000 acres was transferred, the promoters securing as their share in payment therefore, \$325,000 of the stock of the new million dollar corporation. It was drawn out in the evidence that the only improvement made by the Mexican Development company during its tenure was the clearing of 150 acres of the land.

Witnesses admitted that the custom of securing prominent men as stockholders had been adopted, even though gifts and bonuses had to be resorted to. Their names gave stability to the reputation of the company and assisted in the disposition of the stock.

As the examination was directed by the plaintiffs for the disclosure of facts upon which to base a complaint, nothing of the defense proposed by the promoters was adduced.

Sensational Charges for Horne.

It is rumored that Mr. Seiler has made sensational charges against Mr. Horne, secretary of the company, and plaintiff in this action. In an interview, Mr. Seiler declined to discuss this point, but it is presumed that the incident occurred before a meeting of the directors. It is expected that these charges will be aired at the trial of the case which it is expected will be started based on the evidence secured at the present examination.

When asked about these charges this afternoon Mr. Horne said, "Yes, quite a package of charges have been filed against me with the directors, but as they consist of heresay and gossip only, I am unable to give them serious consideration." Mr. Horne thought he ought not make them public without consulting the directors.

## WELCOME FLASHED FROM BIG ARCH

**Electrical Supply Company  
Makes Hit With Their  
Work**

Hundreds of visitors today joined with the people of La Crosse in admiring the splendid Triumphal Arch that rose in welcome to the delegates of the U. C. T.

The design of the arch elicited exclamations of approval from the throngs, the execution marking it as a work of art.

It was at night, when brightly illuminated however, that the arch attracted most of its compliments and expressions of delight. The lighting scheme was designed and executed by the Electrical Supply & Construction company of this city. The lights were in red, white and blue in representation of the national colors, and the "welcome" that went forth to the visitors from that wonderfully artistic display of brilliancy went straight to the hearts of the delegates. The company has received scores of congratulations upon this meritorious piece of work.

## THE POST DISCOVERY.

A Revelation in Human Food.

Previous to the discovery of the Post process of changing the starchy part of Wheat and Barley into a form of sugar, many people suffered from what is known as starch indigestion.

That was shown by gas and all sorts of stomach and bowel trouble, (sometimes ending in appendicitis) brought on by the undigested starch in wheat, oats, white bread, cake, puddings, etc., etc.

Nature ultimately punishes anyone who continually takes some medicine or drug to smooth over or nullify bad conditions of the body. The only safe way to cure such is to correct or remove the cause. Therefore it was plain to Mr. Post, in working out his discovery, that people who show some weakness in digesting the starchy part of food, (which is much the largest part of all we eat) must be helped by having the starch digested or transformed before being eaten. And of course the safest and truest way to do this would be to imitate nature and avoid all chemicals or outside and unnatural things. The body digests the starchy food by the following process: first the moisture or juices of the mouth and stomach, then warmth or mild heat, which grows or develops diastase from the grain. Time is also an important element and when all work together and the human organs operate properly the starch is slowly turned into a form of sugar, as it must be before the blood will absorb it and carry the needed energy to different parts of the body. Of course if the body fails to do its work perfectly trouble sets in.

So in the making of the famous food—Grape-Nuts—moisture, warmth and time are the only things used to turn starch into sugar, thus imitating nature and keeping the human food in original purity, free from outside things and just as Mother Nature intends it shall be kept for advantageous use by her children. The food is fully cooked at the factories, and is crisp and delicious with a little thick cream poured over.

It can be softened for people with weak teeth, but is most valuable to others when it must be energetically chewed, thus bringing down the saliva from the gums to go to the stomach and help digest the entire meal, besides the use of the teeth strengthens and preserves them. Nature blesses the parts of the body that are used and not abused. Grape-Nuts food brings peace, health and comfort when people are in despair from any one of the ails resulting from undigested food.

Read the little book, "The Road to Wellville," found in pkgs. "There's a reason."

Limited" with two rickety carriages hitched to the back of them occupied by delegates.

The Sparta band was the next to come under the arch, followed by the councils of Madison, Janesville, Oshkosh and Sparta respectively.

Dana's band was the next to loom up under the arch to the strains of welcoming music followed by five carriages containing the La Crosse council of the U. C. T.

Then followed Kreutz's band playing a most triumphal air as they passed under the welcoming arch, followed by the members of the La Crosse board of trade with a great turnout. A large number of the members turned out and the parade was one of the largest and most interesting ever witnessed in La Crosse.

Several thousand people lined the streets along the entire route of the parade and merchants had their plates of business well adorned with the national colors.

## HO, FOR GUND'S!

At 5:30 all hearts will respond nobly to the order, "Right forward fours left via trolley to Gund's brewery," where the delegates will become the guests of that famous institution at a reception and banquet. It is expected that the attendance here will be large, and that the "tour of inspection" will fill the brewery to overflowing.

## Band Concert and Ball.

At 7:30 there will be a band concert in court house park, which will be followed at 8:30 by the official grand ball at Germania. That this will be one of the most delightful social affairs ever held in La Crosse is the expectation, owing to lack of room none but members and their families being admitted. The officers of the local council have expressed great regret at the necessity of this restriction. Kreutz's orchestra will furnish music.

## Committees in Charge.

The following committees are in charge of the arrangements:

## COUNCIL WILL NOT PASS A "GUM GAME" ORDINANCE

Trust Organ's Statement That Aldermen are "Pledged" to Pass "Doped" Measure but a Blatant Boast

A "common stock" story last night simmered down says the only two aldermen who will vote against the street car franchise, in case it is not made suitable to the majority of residents of Grand Crossing, are Aldermen B. H. Valentine and P. M. Boyle. This, however, is not true, as there are members of the council who reside on the south side who will stand by the north side people to see that

they get justice. One is reported to have said that he is good for three more years in the council and will during that time, whenever the opportunity arises give his assistance toward making the street car company give the people of La Crosse what is due them. Others residing on the north side will certainly not uphold a franchise which will be detrimental to the people whom they represent. Employees

of the car company were on the north side making measurements Thursday. In short the aldermen of La Crosse do not propose to stand for a "doped" street car ordinance and will vote only for such ordinance as will be fair to the residents of the section to be tapped by the new line. The fact that the street railway company's organ assures the public that "pledged" aldermen will vote for any "gum-game" the street railway company sees fit to work off on the public, means nothing. There is one newspaper—The Tribune—and there are taxpayers, and there is a council of aldermen, who will see that the public gets what is due the public from the public service corporation. It is to be remembered that the north side line of the car company is the best paying part of the system and it seems a rather reckless or foolish policy to antagonize "the goose that lays the golden egg."

# U. C. T. Delegates

You are Right Royally Welcomed to La Crosse and Most Cordially Invited to Come and See the New and Unique Bottlery of

.. OLD STYLE LAGER ..

AN ARTISTIC AND NOVEL BOTTLERY.

The wonderful demand for Heileman's "OLD STYLE LAGER" has aroused a great deal of interest in everything connected with the production of this remarkable beer.

The new bottling house shown above, the picture being reproduced from a photograph, is one of the sights of La Crosse. The building is a facsimile of an old-time roadside inn, is constructed of heavy wooden beams and cement with quaint illustrations and designs done in colored stucco on the outer walls. The old-fashioned settees and staircase, oddly constructed windows and curious antique signboard are interesting features. The building is complete to the minutest details even to the stork with its nest on a wagon wheel on one of the chimneys. The building is famous as being the most original

and artistic bottlery in the United States and is wholly in keeping with "OLD STYLE LAGER," the beer of originality. While extremely artistic, nothing has been sacrificed in the way of utility, for the building is excellently well designed and splendidly adapted to the purpose for which it was erected.

Notwithstanding that it was only a year ago that this novel bottlery was erected and fitted with the very latest and best of labor saving machinery (supposedly to suffice for years) the company is already installing a duplicate set of machinery (doubling their present large capacity) in order to supply the tremendous demand for THE BEER WITH A SNAP TO IT.

Visitors to La Crosse should make it a point to see this remarkable and interesting building.

### AN APPRECIATION OF THE TRAVELERS.

La Crosse may burn up today! What do we care, we don't own it! The Travelers own La Crosse today! And if it does burn, it will burn with the warmth of the welcome La Crosse gives the delegates to the U. C. T. convention, and with the warmth of the enthusiasm with which these delegates are admiring and enjoying La Crosse.

Every business, if long followed, gives its pursuers certain definable and inalienable characteristics—not their own naturally but bred into them by the enterprise. Vocations have distinct atmospheres; they are little worlds, with their own little joys and sorrows, worshipping their own little gods.

Incessant travel broadens the commercial traveler; meeting many men of many minds and conflicting ideas, he is usually liberal in his views: earning his daily bread by extolling virtues of his "line," he becomes an habitual "booster" and expresses himself always in the language of optimism: accustomed to the long night ride, the lonely stop-over and the never ceasing vicissitudes of the "road," his resources are developed to entertain himself and his associates; a hearty laugh, a glad song, a good story—these come from his ready lips with the charmed facility of flowing water. The commercial traveler is a good business man at work, good company on the road, a good citizen always, and a prince of good fellows.

La Crosse is proud today that her own little brigade of two hundred travelers is entertaining here the state travelers convention. It is a pleasure to have them here. There is a selfish pride in anticipating the good things these active, cheery fellows are going to say about our city when they leave, but the unselfish pleasure of their presence is a most gratifying sensation. We hope our people are extending the hand with unconventional fellowship. Don't wait to be introduced! Reach out and shake hands with the fellows with the badges; they are all good fellows—you can't make a mistake!

### THE ATTACK ON JEROME

The allegation of certain New York gentlemen that Prosecutor Jerome has been guilty of accepting a bribe for neglecting to prosecute certain wrongdoers, will create considerable interest. Mr. Jerome has been a foremost figure in graft prosecutions, and his sincerity has been questioned. Is this greatest of prosecuting attorneys also one of the greatest of grafters?

No man ever did his duty as a prosecutor without making enemies. It is certain that there are in New York powerful interests seeking the downfall of Mr. Jerome. The name of Governor Higgins as seeking his discomfiture lends color to the charges, as it cannot be supposed a man of so great prominence would consider charges of this sort unless there appeared to him to be substantial grounds. However, most people will be loath to see the fair name of one whom we have learned to regard as a powerful force for good besmirched; men do not love shattered idols, and until the evidence is adduced there will be little tendency to convict Mr. Jerome. It is up to his accusers to make good their claims, and he should not be prejudged.

### THE WAIL OF PACKTOWN.

The packers are crying on the witness stand. Their representatives are telling the house committee on agriculture that "the president has ruined their business." They are in a reproachful mood, and are working "the sympathy racket" with tearful enthusiasm.

From all that has been learned up to date, it would seem more appropriate were these tears being shed from behind steel bars. The impudence of these fellows, caught red-handed in dealings that may represent more murders than years of open crime have accomplished, in complaining that the exposure of their nefarious operations by the president of the United States is a grievous wrong against them, surpasses under-

standing. Have they been bred to the assumption that the possession of money condones any act of dishonesty or violence they may commit? Has long unrebuked employment of putrid methods caloused their souls to remorse or shame? Must this great country dilly-dally with congressional hearings concerning crimes compared to which the midnight deed of the ignorant cut-throat is a petty misdemeanor?

Restrictive measures are all right; publicity is good as far as the future is concerned. But criminal prosecutions of the most drastic nature are the crying demand of the case. Let there be no more consideration of what money these fiends of industry may lose; let the charge of criminal conduct be made and the authors of the heinous wrong charitably called, "The scandal of Packtown," be brought before a criminal court. That such infamy goes unchallenged by our prosecutors is a stain upon this nation recognized and wondered at the wide world over.

### THE HOUSER AIRING.

There will be satisfaction over the fact that the charges against Secretary of State Houser are to be aired in court. It is now accepted by all parties that there is no public matter in this state more material than a final determination as to the truth or falsity of the accusation that a high state officer offered to bribe another high officer of the state.

The Tribune believes in fair play. It believes that in the consideration of this matter the possible, if not apparent, existence of a political motive should be remembered; it believes that Mr. Houser should not be condemned without a fair trial. It believes that if he is found to have actually been guilty of the alleged conduct, he should be proceeded against with all the machinery of the law and that the fact that exposure came as the result of a political fight should not operate to mitigate the extent of his punishment. But great care should be taken to fairly scrutinize the evidence; existing conditions demand that there be taken every precaution to give a square deal to all.

### JUST LIFE

#### The U. C. T. Colors.

A white man can feel blue today without being unpopular.

#### The Hustlers.

When you see a busy bee—  
Sell whom e'er he goes to see  
Just bet your filthy lucre he  
'S a member of the U. C. T.

Perhaps it would be well to march the parade past the handsome plant of the "People's Gas company" today?

Now the packers are shedding copious tears for the hard luck which is to fall on the "stock raisers."

A gentleman returning from Chicago today says that coincident with the invitation of the packers to the public to visit their slaughter houses, thousands of men are busy cleaning up the filth.

#### The Call of the "Wild."

It is h—(fierce) when the band starts playing  
And the music fills your ears  
And you hear the crowds 'acheering,  
And you dream of those tall beerz,  
You hear the crowds 'a laffin'  
An' the flags all wavin' free,  
You want to be among 'em  
And shout an' laugh—Oh, Gee!  
When your spirits get to risin'  
And you want to pass up work,  
A rasping call for "copy"  
Shuts your wind off with a jerk.

#### All of 'Em Kings.

With no disrespect to his governorship we don't mind expressing the opinion that "Yim" will not set the town afire while here for there is in La Crosse today a convention of men, everyone of whom is worthy to be governor, yea—president.

Charlie Chamberlain does sincerely hope that "the papers won't get it in 'W. C. T. U.'"  
Well, that's "always the fault of the 'fool compositor,' Charles."

Ain't it tough to have to stay in a musty old office and grind out a hard day's work, with a half a dozen hands dusting past every few minutes?

Parents of high school students are sick enough of the "half day session" to warrant it's abolishment. Those early breakfasts and late dinners are a long ways from popular.

## GO TO STATE GOLF TOURNAMENT

Several La Crosse "Knights of the Links" contemplate going to Jamesville to participate in the state golf tournament.

President McGiffen and Secretary J. P. Baker of the Wisconsin State Golf association announce that plans for the coming state tournament are

now complete. Two new features, consisting of a novel contest for old men and one for women, have been arranged for and promise to give much amusement. The links have been much improved this summer, the grounds beautified and the clubhouse made ready for the reception of the guests. Several of the prospective contestants have already made arrangements for quarters at the Myers hotel for the tournament weeks and indications point to a large number of enthusiasts from all parts of the state being present. The entries close the Sunday before the tournament opens, which is the last week of June.

## LA RUE IS BETTER

Pearl La Rue, the third baseman for the Wausau team from Fort Wayne, Ind., who was hit in front of the ear by a baseball yesterday, is getting along nicely and is able to be around today although he still feels very sore.

Dr. Egan attended him. Mr. Cargill brought him from the grounds to the city in his auto.

When first struck it was thought that the blow might be fatal. He dropped to the ground like a log and was somewhat delirious last evening.

## GRADUATION AT ON-ALASKA HIGH SCHOOL

A class of seven will be awarded diplomas this evening at the graduation exercises of the Onalaska school in the Woodman hall to certify that they have successfully passed the four years course subscribed by the school.

A class playlet entitled "The Superior Six" so named on account of the fact that there are six girls and only one boy in the class was given last evening.

The baccalaureate sermon was delivered by Rev. Hocking last Sunday evening.

Tonight the class will be addressed by Attorney Otto Bosshard.

The program will be as follows:

Invocation—Rev. C. L. Hocking.  
Song, "Wiegenlied"—Girls' Glee club.

Essay, "The Power of Wit"—Ada Richmond.  
Essay, "Alexandria as a Seat of Learning"—Sarah Hanson.  
Song, "Rainy Day"—Boy's Sextet.  
Oration, "Our Navy"—Florence Cox.  
Oration, "Napoleon Bonaparte"—Emma Hoff.  
Solo, selected—Miss Kinne.  
Address—District Attorney Bosshard.  
Presentation of Diplomas—J. M. Pierce.  
Song, "The Morning Ramble"—High School Chorus.  
Benediction—Rev. C. L. Hocking.

## SPARTA AFTER '07 U. C. T. MEET

The first city in the state to announce itself as a candidate for the next convention of the U. C. T.'s is Sparta.

The delegation reached this city this morning, forty strong, and will not leave a stone unturned in the way of getting the 1907 U. C. T. convention.

Although Sparta is the smallest city in the state which can boast of a council, this city of 4,000 inhabitants has a council of forty and they are all hustlers.

# NEILL REPLIES TO HARANGUE OF PACKERS' MAN AT WASHINGTON

Washington, June 8. — The house committee on agriculture continued its hearing on the Neill-Reynolds meat inspection report. Thomas E. Wilson, manager for Nelson, Morris & Co., and representing the large Chicago packing houses, continued his remarks on the Beveridge amendment providing for meat inspection. His remarks were devoted entirely to criticism of such sections of the Beveridge bill as he objected to.

## Objected to by Wilson.

Representative Adams summed up the objections Wilson had made to the Beveridge amendment and Wilson assented to each in turn. The first was the objection to placing the cost of inspection on the packers; the second requiring dates on labels; third, the sanitary requirement, which leaves discretion to common carriers to reject shipments if it regards the packing house from which they came as unsanitary; fourth, the use of adjectives describing meat unfit for food; fifth, the restriction on preservatives; in such form that any inspector might put his own interpretation on what was injurious; and sixth, the requirement that the contents of canned product shall be set forth on the label.

## Dr. Neill Goes on the Stand.

Neill was then put on the stand. Scott of Kansas wanted to know the training Neill had previously had to prepare him to make the inquiry. "I simply claim to be a man of average intelligence," he replied. He said he had worked in a Chicago packing house for six months in a university settlement. Neill related a parting interview with Dr. Dyson, consulting veterinarian in Chicago representing the packers. Dr. Dyson, he said, suggested that Neill and Reynolds go to Washington, make no report, but inform the packers of the conditions found and suggestions for remedies; then to wait thirty days and come back and see if conditions had not been bettered. This, he indicated, was to prevent injury to the trade. Neill said he replied that he was not authorized to make any trade or deal. He then presented two letters he had received from Dr. Dyson along the same lines.

## TAKES ISSUE WITH WILSON

Declares that the floors were not scrubbed for weeks.

Neill rather discouraged a visit of the committee to Chicago at this time as many of the conditions complained of were due to negligence and could have been remedied immediately. He denied the statement of Wilson that the floors were scrubbed daily. The dirt on some of the rooms was caked on the floor and had not been washed for weeks. Neill was asked: "You take direct issue with Mr. Wilson on the fact that these rooms were not cleaned?" "Yes, sir, I do. There were floors there that were black. There was no ventilation."

Hangen wanted to know the objection to artificial light. "We are working right here in this room with artificial light and have fifty others right in this capital," "My opinion is," replied Neill, "that no one should be required to work eight hours a day by artificial light." He could not exactly specify the rooms that were dirty, but said he remembered in particular one cooking room was dirty, and he remembered walls, particularly in the

# BLATZ BEER

## MILWAUKEE

### Quality—Individuality—Purity—

The Quality of the Malt decides the body of a beer. Blatz Malt is produced in the brewery's own malt house by trained Malsters (years in Blatz service). "Not only how much malt—but how good" is here the inviolable rule. This method is expensive, but the desired result is always achieved—the vital ingredients of the malt are thereby brought out and retained. To the Blatz malt is due the prevailing full-bodied state of Blatz Beer.

The Hops used in the brewing of Blatz Beer are rich in aromatic properties and tonics (hoppibitters), which lend to the beer that fragrance which captivates lovers of the beverage. The tonics act as a mild stimulant to the digestion. Blatz Beer is perfectly fermented and ripened in the coldest and cleanest cellars extant.

The most skilled masters zealously guard "Blatz" individuality. The paramount object being to maintain with absolute uniformity every characteristic that has these many years meant Blatz Quality.

entrances, that were sticky with dirt, and a pillar that you could scrape dirt from with your knife.

Lorimer asked a number of questions to find out if Neill saw meat in transit from the curing vats to the cooking vat. But Neill would not answer this directly. "I did not follow the meat in that way," he said. "We came upon meats in all stages, not knowing where it came from or where it was going." He took issue with Wilson's statement. One instance he remembered specifically in the Nelson Morris house. He saw one of the men who had just finished his bending walk over the dirt on the floor to a pile of meat on the floor, climb on to the pile with his feet, crotch and hands, pick up a piece and throw it fifteen feet on the floor to his bench. This he said was directly under the eye of the superintendent.

## BANKRUPT'S PETITION FOR DISCHARGE.

In the district Court of the United States for the Western District of Wisconsin.

In the matter of James H. Hess, bankrupt, in bankruptcy.

To the Honorable A. L. Sanborn, Judge of the District Court of the United States for the Western District of Wisconsin.

James H. Hess of Galesville, in the county of Trempealeau, and state of Wisconsin, in said district, respectfully represent that on the 28th day of Dec. 1904 last past, he was duly adjudged bankrupt under the acts of Congress relating to bankruptcy, that he has duly surrendered all his property and rights of property, and has fully complied with all the requirements of said acts and of the orders of the court touching his bankruptcy.

Wherefore he prays that he may be decreed by the court to have a full discharge from all debts provable against his estate under said bankrupt acts, except such debts as are excepted by law from such discharge.

Dated this 4th day of June, A. D. 1906.

JAMES H. HESS,  
Bankrupt.

## Order of Notice Thereon.

Western District of Wisconsin—ss.  
On this 8th day of June, A. D. 1906, on reading the foregoing petition, it is

Ordered by the Court, that a hearing be had upon the same on the 26th day of June, A. D. 1906, before said court at La Crosse, in said district, at 10 o'clock in the forenoon; and that notice thereof be published in the La Crosse Evening Tribune, a newspaper printed in said district, and that all known creditors and other persons in interest may appear at the said time and place and show cause, if any they have, why the prayer of the said petitioner should not be granted.

And it is further ordered by the court that the clerk shall send by mail to all known creditors copies of said petition and this order, addressed to them at their places of residence as stated.

Witness, the Honorable Arthur L. Sanborn Judge of the said court, and the seal thereof, at La Crosse, in said district on the 8th day of June, A. D. 1906.

ALFRED HARRISON,  
Clerk.

The first of a series of games to be played with Wausau was forfeited to the champions yesterday in the ninth inning after one of the most interesting games of baseball ever witnessed in the city.

The score was 1 to 0 in favor of the Lumbermen and La Crosse had three men on bases when Manager Malven waited the call of time and led his team off the diamond after Umpire Cross declared Killian hit by the pitcher so that he walked to first and thus forced Medwysky who was on third over home plate and tied their score.

After the first of the ninth inning when the visitors had a score of 1 to 0 in their favor, the first man up for the "pennant winners" was Medwysky who reached first on an error made at third by Pappenfus who fumbled a fast grounder. Cahill then fanned and Konetchy, the next man up, was hit by the pitcher during which time Medwysky had found his way to second. Schneberg then went to bat for Klock and after a long conference he was given his base on balls. There were now three men on bases and the game was intensely exciting. Killian was the next man up and every one was waiting for something in the shape of a three bagger when the pitcher hit him in the arm and Umpire Cross at once awarded him first base. The Wausau team protested and said that Killian had struck at the ball. Time was called by Umpire Cross and the game was awarded to La Crosse by a score of 9 to 0.

## AT THE THEATRES

The Freeze Bros. at the Bijou this week are the originators of the distinct novelty act they are presenting, spinning and juggling tamborines on hands, knees and feet simultaneously. For four years they were one of the big feature acts of the Primrose and West minstrels. After closing their engagement with this organization they toured Europe with Barnum & Baily's circus. Mr. Lawrence Freeze now wears for a watch charm a twenty franc gold piece, given to him at Monte Carlo by an admirer. Any one who has had the pleasure of seeing their clever act can see how difficult it is. They keep thirty-two tamborines in motion at one time and from a spectator's point of view one will wonder at the perfect control they have of their instruments, hands, feet, knees and head all moving in a different direction at one time. The boys are also as clever dancers as has ever been here, doing the neat finished clogs in hard sole shoes, in the most finished manner. The boys although proud of their achievement are not in the least unsocial and make lots of friends everywhere they go. The Volcanic Eruption of Mount Vesuvius on the Edison life motion picture machine is a wonderful reproduction of that awful disaster. The Bijou is getting the crowds and is the most popular place in town.

advantages from an early state platform convention. It will afford an excellent opportunity for the representatives of the party to put their organization in the right attitude before the electors regarding certain affiliations about which there have been deep-reaching divisions in two campaigns. It will enable the party to choose its position without regard to the position of either faction in the opposing party. The democrats in this campaign will not have to be content with what republicans have left after making their platform. It will enable the democratic party to choose its material, leaving to its enemies the task of framing a platform from what is left for them or else appearing to endorse something already appropriated by a party earlier in the field. This advantage has been lost in previous campaigns whether be design does not now matter. It is sufficient that it will not be lost again. The platform should be on well-recognized democratic lines. If there has been any departure from Jeffersonian democracy, there should be a return to it. It should be kept in mind that this year's contest will be somewhat in the nature of a drill for the greater contest to come in 1908. The democrats may win in this contest; but whether they do or not, the lessons of experience should be heeded and they must return to democratic principles and stay there and get a reputation for reliability and consistency. There is absolutely no other sensible course to pursue.—Darlington Democrat.

### La Crosse Man Will Undoubtedly be Elected Tomorrow ---Milwaukee, Appleton and Sparta are After Next Grand Council

Fair weather greeted the delegates to the U. C. T. convention here this morning. At one o'clock about 300 delegates had registered at headquarters, in the Stoddard, where R. A. Worth is in charge. Enthusiasm marked the procession of delegates that poured in from all trains during the night and morning, twenty-three councils being represented.

Three bands, the splendid aggregation from Virgona, the younger and talented musicians from Sparta and the effective band from Bangor, paraded the streets at the head of various delegations, dispensing music, while Dana and Krenz lent their voices to the general sound of the gala day.

With commendable loyalty the merchants and business men of La Crosse had decorated their stores, and the streets in all directions from the Arch of Welcome reflected the holiday spirit that invaded the city with the travelers.

Brindley Jollies Them.

The morning session was called to order by Grand Councillor Maynard, of Oshkosh. In the absence of Mayor Torrance, Judge John Brindley delivered the opening address, and captivated his hearers with his usual jolly spirit. He accused the home delegates with having selected him because, after the usual promise due in a speech of welcome, that they have the freedom of the city, he, the speaker, would be committed by his words and as the only judge with a criminal jurisdiction, would be exempted from convicting them for any conduct they might care to indulge in. In more serious tone, the judge delivered a delightful address.

Morning Session o'Routine.

The remainder of the morning session was devoted to routine work, the grand council holding an executive session. The usual committees on resolutions and conventional business affairs were appointed, and adjournment was taken until 1 o'clock.

Afternoon Session.

In the afternoon session there occurred further routine work. The reports of the committees appointed in the morning were read during the afternoon, but none of the resolutions were made public. An interesting feature was a letter from Congressman John J. Esch, received this morning by D. S. Fairbairn, in which Mr. Esch discussed the progress of the Esch bill making salesmen preferred creditors in bankruptcy cases; the letter created considerable enthusiasm, its tone being distinctly optimistic. The letter follows:

The Esch Letter.

June 6, 1906.

D. S. Fairbairn,

Secretary U. C. T. C.

La Crosse, Wis.

My Dear Sir:—

bill amending the National Bankruptcy Act so as to give traveling and city salesmen the rights of preferential creditors, duly received.

In reply I beg leave to state that the bill passed the house about six weeks ago and is now pending in the senate committee on judiciary. I had a conference this week with Senators Nelson, Foraker and Spooner, members of the senate committee on judiciary having the bill in charge. They informed me that it was hoped to report the bill out next Monday with certain other amendments to the Bankruptcy Act added thereto and that there was no doubt but that favorable action could be secured in the senate.

In view of the strong sentiment in the house favorable to a repeal of the entire Bankruptcy Act I expressed fear of adding to our bill other amendments which might arouse still further antagonism; my preference being to let our bill go through as it came from the house and thus avoid further complications. It is possible, however, that the senate committee will only add such other amendments to the Bankruptcy Act as will be of such general merit as to commend themselves to both houses and thus insure favorable action. If the bill is reported favorably Monday by the senate committee I will advise you by telegram. I feel confident that we shall attain our end.

Wishing the U. C. T. convention which convenes in La Crosse this week a most delightful and profitable occasion, I remain,

Yours very truly,

(Signed) JOHN J. ESCH.

The Governor Arrives.

Governor Davidson, contrary to expectations, arrived on the noon Northwestern train. The governor had advised the Travelers that he would be unable to be here, a fact owing to which there was no band at the train. But a few people learned of his coming; he was escorted with his customary lack of ostentation to the Stoddard, where he dined at his leisure. He will take part in the parade at 4 o'clock, and will remain at the Stoddard until tomorrow noon.

The Women Meet.

At Masonic Temple today the ladies are holding forth. Dana's orchestra is assisting in the entertainment, the wives and women relatives of the delegates and resident members having arranged this pleasant method of meeting and becoming acquainted. There is the usual refreshment budget, with tea enough to go around.

On the Water Wagon.

An amusing episode occurred this morning when six delegates comprising a party that presented that physical variety that is the spice of life, after what is presumed to have been a strenuous night of it, mounted a

Another Joke.

Laughter was aroused at headquarters, The Stoddard, by an incident, echoing from the last grand council, at Oshkosh. This morning a gentleman entered the headquarters with a brilliant umbrella that was the La Crosse banner in the fight for the honor of being convention city over Oshkosh last year. "I stole this last year," he said, "and I told the boys I would return it to the owner at La Crosse this year. I told them this before the vote was taken, so you see I guessed right as to the honor. I want to make good by returning the umbrella." The gentleman did not know the name of the La Crosse man from whom he had stolen the trophy, nor would he tell his name. He left headquarters amid a hearty laugh. After he had gone, Mr. Worth said to a Tribune reporter, "You see there is one honest man in Oshkosh." "Yes," laconically remarked a quiet looking stranger just leaving the door, "only he's from Milwaukee."

### Declines a Private Carriage; Rides With the Boys

Governor Davidson was seen at the Stoddard today, and expressed himself as pleased with the political outlook. He said he had attended a big meeting in Blair last evening, and could not have asked a better reception of more promising conditions.

Upon his unexpected arrival here today, the governor became the center of attention. He consented to take part in the parade, but when asked if he would accept a private carriage, replied, "No, I would rather ride with the boys."

Governor Davidson does not expect to deliver an address here. He will remain at the Stoddard until noon tomorrow. There were many callers there today, and friends of the governor say he will receive throngs of visitors during his stay in the city.

VIENNA, June 8.—Drehers, driving a ninety-horse power Mercedes arrived first in the Herokomer automobile race from Frankfurt. Prince Henry arrived at 11:30 an hour later. Pierce, American, finished at 12:13. A hundred and fifteen of 156 starters finished. One driver killed a peasant in the run.

### PACKERS' MILLIONS TO BUY UP PRESS

### Papers Which Have Roasted Them Get Nothing; President's Letter

(Scripps-McRae Dispatch.)  
CHICAGO, June 8.—It is estimated the packers will be forced to spend a million stemming the indignation on account of the recent exposure.

"Advertising contracts" are being made with newspapers. Already \$850,000 has been spent here in page-advertisements asking the public to visit their plants.

This morning advertisements appeared in eastern papers.

Local publications which attacked the packers were not given the advertisements.

Has Grave Charges.

WASHINGTON, June 8.—The president sent to the house agriculture committee two reports of the inspection of the Chicago packing houses by the agricultural department before the Neill-Reynolds investigation.

The president in a letter comments on the immediate and extraordinary improvement in the packing house conditions following the Neill-Reynolds report.

The letter states the investigation of "packingtown" is unfinished and he is not prepared to make a final statement regarding the complaints against the bureau of animal industry or the "graver charges in connection with the adulteration of meat products, as well as other matters."

He quotes a letter from a Chicago friend who describes the packers' haste in cleaning up as "amusing if it were not so nearly tragic."

Reynolds' Story.

WASHINGTON, June 8.—James B. Reynolds testified before the house agriculture committee stating the matter in the Neill-Reynolds report as observed by him.

Chairman Wadsworth denied the published reports that he (Wadsworth) was friendly to the packers in asking questions yesterday. He said he wanted only to find out the truth. Reynolds said his inspection for foreign trade was satisfactory, but there was always that disagreeable odor about the Chicago packing houses which the New York houses do not have.

### HORNE FIERCELY ATTACKED

### A Defendant Said to Have Made Sensational Counter Charges

The examination of the promoters of The Mexican Plantation company, under the discovery statute, was begun before Court Commissioner Alfred Harrison yesterday, and was continued today. C. E. Seiler and William Funke, of the defendants, were on the stand.

The examination was conducted for the defendants by Attorney Bunge, while the inquirers were represented by Higbee & Higbee. The scope of the examination was voluntarily limited to the nature of the business transactions.

The testimony showed that, in the first place, certain of the promoters had bought 2,000 acres of Mexican land for \$8,000 dollars, but that as these were Mexican dollars, the amount actually paid was about \$2,000 American money.

As the next step the promoters formed an organization in which the original operators retained an interest, taking the property over at \$20,000, of which sum \$12,000 was actually paid over. The Becks were to have paid the balance.

Thereafter the promoters organized The Mexican Development company, securing \$90,000 for the transfer of the original 2,000 acres.

The final step was the reorganization that gave birth to The Mexican Plantation company. Again the 2,000 acres was transferred, the promoters securing as their share in payment therefor, \$325,000 of the stock of the new million dollar corporation.

It was drawn out in the evidence that the only improvement made by the Mexican Development company during its tenure was the clearing of 150 acres of the land.

Witnesses admitted that the custom of securing prominent men as stockholders had been adopted, even though gifts and bonuses had to be resorted to. Their names gave stability to the reputation of the company and assisted in the disposition of the stock.

As the examination was directed by the plaintiffs for the disclosure of facts upon which to base a complaint, nothing of the defense proposed by the promoters was adduced.

Sensational Charges for Horne.

It is rumored that Mr. Seiler has made sensational charges against Mr. Horne, secretary of the company, and plaintiff in this action. In an interview, Mr. Seiler declined to discuss this point, but it is presumed that the incident occurred before a meeting of the directors. It is expected that these charges will be aired at the trial of the case which it is expected will be started based on the evidence secured at the present examination.

When asked about these charges this afternoon Mr. Horne said, "Yes, quite a package of charges have been filed against me with the directors, but as they consist of heresay and gossip only, I am unable to give them serious consideration." Mr. Horne thought he ought not make them public without consulting the directors.

## WELCOME FLASHED FROM BIG ARCH

**Electrical Supply Company  
Makes Hit With Their  
Work**

Hundreds of visitors today joined with the people of La Crosse in admiring the splendid Triumphant Arch that rose in welcome to the delegates of the U. C. T.

The design of the arch elicited exclamations of approval from the throngs, the execution marking it as a work of art.

It was at night, when brightly illuminated however, that the arch attracted most of its compliments and expressions of delight. The lighting scheme was designed and executed by the Electrical Supply & Construction company of this city. The lights were in red, white and blue in representation of the national colors, and the "welcome" that went forth to the visitors from that wonderfully artistic display of brilliancy went straight to the hearts of the delegates. The company has received scores of congratulations upon this meritorious piece of work.

## THE POST DISCOVERY.

A Revelation in Human Food. Previous to the discovery of the Post process of changing the starchy part of Wheat and Barley into a form of sugar, many people suffered from what is known as starch indigestion.

That was shown by gas and all sorts of stomach and bowel trouble, (sometimes ending in appendicitis) brought on by the undigested starch in wheat, oats, white bread, cake, puddings, etc., etc.

Nature ultimately punishes anyone who continually takes some medicine or drug to smooth over or nullify bad conditions of the body. The only safe way to cure such is to correct or remove the cause. Therefore it was plain to Mr. Post, in working out his discovery, that people who show some weakness in digesting the starchy part of food, (which is much the largest part of all we eat) must be helped by having the starch digested or transformed before being eaten. And of course the safest and truest way to do this would be to imitate nature and avoid all chemicals or outside and unnatural things. The body digests the starchy food by the following process: first the moisture or juices of the mouth and stomach, then warmth or mild heat, which grows or develops diastase from the grain. Time is also an important element and when all work together and the human organs operate properly the starch is slowly turned into a form of sugar, as it must be before the blood will absorb it and carry the needed energy to different parts of the body. Of course if the body fails to do its work perfectly trouble sets in.

So in the making of the famous food—Grape-Nuts—moisture, warmth and time are the only things used to turn starch into sugar, thus imitating nature and keeping the human food in original purity, free from outside things and just as Mother Nature intends it shall be kept for advantageous use by her children. The food is fully cooked at the factories, and is crisp and delicious with a little thick cream poured over.

It can be softened for people with weak teeth, but is most valuable to others when it must be energetically chewed, thus bringing down the saliva from the gums to go to the stomach and help digest the entire meal, besides the use of the teeth strengthens and preserves them. Nature blesses the parts of the body that are used and not abused. Grape-Nuts food brings peace, health and comfort when people are in despair from any one of the ills resulting from undigested food.

Read the little book, "The Road to Wellville," found in pkgs. "There's a reason."

Limited" with two rickety carriages hitched to the back of them occupied by delegates.

The Sparta band was the next to come under the arch, followed by the councils of Madison, Janesville, Oshkosh and Sparta respectively.

Dana's band was the next to loom up under the arch to the strains of welcoming music followed by five carriages, containing the La Crosse council of the U. C. T.

Then followed Kreutz's band playing a most triumphal air as they passed under the welcoming arch, followed by the members of the La Crosse board of trade with a great turnout. A large number of the members turned out and the parade was one of the largest and most interesting ever witnessed in La Crosse.

Several thousand people lined the streets along the entire route of the parade and merchants had their places of business well adorned with the national colors.

## HO, FOR GUND'S!

At 5:30 all hearts will respond nobly to the order, "Right forward fours left via trolley to Gund's brewery," where the delegates will become the guests of that famous institution at a reception and banquet. It is expected that the attendance here will be large, and that the "tour of inspection" will fill the brewery to overflowing.

## Band Concert and Ball.

At 7:30 there will be a band concert in court house park, which will be followed at 8:30 by the official grand ball at Germania. That this will be one of the most delightful social affairs ever held in La Crosse is the expectation, owing to lack of room none but members and their families being admitted. The officers of the local council have expressed great regret at the necessity of this restriction. Kreutz's orchestra will furnish music.

## COUNCIL WILL NOT PASS A "GUM GAME" ORDINANCE

Trust Organ's Statement That Aldermen are "Pledged" to Pass "Doped" Measure but a Blatant Boast

A "common stock" story last night, however, is not true, as there are members of the council who reside on the south side who will stand by the north side people to see that they get justice. One is reported to have said that he is good for three more years in the council and will during that time, whenever the opportunity arises give his assistance toward making the street car company give the people of La Crosse what is due them.

Others residing on the north side will certainly not uphold a franchise which will be detrimental to the people whom they represent. Employees

of the car company were on the north side making measurements Thursday. In short the aldermen of La Crosse do not propose to stand for a "doped" street car ordinance and will vote only for such ordinance as will be fair to the residents of the section to be tapped by the new line.

The fact that the street railway company's organ assures the public that "pledged" aldermen will vote for any "gum-game" the street railway company sees fit to work off on the public, means nothing.

There is one newspaper—the Tribune—and there are taxpayers, and there is a council of aldermen, who will see that the public gets what is due the public from the public service corporation.

It is to be remembered that the north side line of the car company is the best paying part of the system and it seems a rather reckless or foolish policy to antagonize "the goose that lays the golden egg."

# U. C. T. Delegates

You are Right Royally Welcomed to La Crosse and Most Cordially Invited to Come and See the New and Unique Bottlery of

.. OLD STYLE LAGER ..

### AN ARTISTIC AND NOVEL BOTTLERY.

The wonderful demand for Heileman's "OLD STYLE LAGER" has aroused a great deal of interest in everything connected with the production of this remarkable beer.

The new bottling house shown above, the picture being reproduced from a photograph, is one of the sights of La Crosse. The building is a facsimile of an old-time roadside inn, is constructed of heavy wooden beams and cement with quaint illustrations and designs done in colored stucco on the outer walls. The old-fashion settees and staircase, oddly constructed windows and curious antique signboard are interesting features. The building is complete to the minutest details even to the stork with its nest on a wagon wheel on one of the chimneys.

The building is famous as being the most original

and artistic bottlery in the United States and is wholly in keeping with "OLD STYLE LAGER," the beer of originality. While extremely artistic, nothing has been sacrificed in the way of utility, for the building is excellently well designed and splendidly adapted to the purpose for which it was erected.

Notwithstanding that it was only a year ago that this novel bottlery was erected and fitted with the very latest and best of labor saving machinery (supposedly to suffice for years) the company is already installing a duplicate set of machinery (doubling their present large capacity) in order to supply the tremendous demand for THE BEER WITH A SNAP TO IT.

Visitors to La Crosse should make it a point to see this remarkable and interesting building.

### AN APPRECIATION OF THE TRAVELERS.

La Crosse may burn up today! What do we care, we don't own it! The Travelers own La Crosse today! And if it does burn, it will burn with the warmth of the welcome La Crosse gives the delegates to the U. C. T. convention, and with the warmth of the enthusiasm with which these delegates are admiring and enjoying La Crosse.

Every business, if long followed, gives its pursuers certain definable and inalienable characteristics—not their own naturally but bred into them by the enterprise. Vocations have distinct atmospheres; they are little worlds, with their own little joys and sorrows, worshipping their own little gods.

Incessant travel broadens the commercial traveler; meeting many men of many minds and conflicting ideas, he is usually liberal in his views; earning his daily bread by extolling virtues of his "line," he becomes an habitual "booster" and expresses himself always in the language of optimism: accustomed to the long night ride, the lonely stop-over and the never ceasing vicissitudes of the "road," his resources are developed to entertain himself and his associates; a hearty laugh, a glad song, a good story—these come from his ready lips with the charmed facility of flowing water. The commercial traveler is a good business man at work, good company on the road, a good citizen always, and a prince of good fellows.

La Crosse is proud today that her own little brigade of two hundred travelers is entertaining here the state travelers convention. It is a pleasure to have them here. There is a selfish pride in anticipating the good things these active, cheery fellows are going to say about our city when they leave, but the unselfish pleasure of their presence is a most gratifying sensation. We hope our people are extending the hand with unconventional fellowship. Don't wait to be introduced! Reach out and shake hands with the fellows with the badges; they are all good fellows—you can't make a mistake!

### THE ATTACK ON JEROME.

The allegation of certain New York gentlemen that Prosecutor Jerome has been guilty of accepting a bribe for neglecting to prosecute certain wrongdoers, will create considerable interest. Mr. Jerome has been a foremost figure in graft prosecutions, and his sincerity has been questioned. Is this greatest of prosecuting attorneys also one of the greatest of grafters?

No man ever did his duty as a prosecutor without making enemies. It is certain that there are in New York powerful interests seeking the downfall of Mr. Jerome. The name of Governor Higgins as seeking his discomfiture, lends color to the charges, as it cannot be supposed a man of so great prominence would consider charges of this sort unless there appeared to him to be substantial grounds. However, most people will be loath to see the fair name of one whom we have learned to regard as a powerful force for good besmirched; men do not love shattered idols, and until the evidence is adduced there will be little tendency to convict Mr. Jerome. It is up to his accusers to make good their claims, and he should not be prejudged.

### THE WAIL OF PACKINGTOWN.

The packers are crying on the witness stand. Their representatives are telling the house committee on agriculture that "the president has ruined their business." They are in a reproachful mood, and are working "the sympathy racket" with tearful enthusiasm.

From all that has been learned up to date, it would seem more appropriate these tears being shed from behind steel bars. The impudence of these fellows, caught red-handed in dealings that may represent more murders than years of open crime have accomplished, in complaining that the exposure of their nefarious operations by the president of the United States is a grievous wrong against them, surpasses under-

standing. Have they been bred to the assumption that the possession of money condones any act of dishonesty or violence they may commit? Has long unrebutted employment of putrid methods caloused their souls to remorse or shame? Must this great country dilly-dally with congressional hearings concerning crimes compared to which the midnight deed of the ignorant cut-throat is a petty misdemeanor?

Restrictive measures are all right; publicity is good as far as the future is concerned. But criminal prosecutions of the most drastic nature are the crying demand of the case. Let there be no more consideration of what money these fiends of industry may lose; let the charge of criminal conduct be made and the authors of the heinous wrong charitably called, "The scandal of Packingtown," be brought before a criminal court. That such infamy goes unchallenged by our prosecutors is a stain upon this nation recognized and wondered at the wide world over.

### THE HOUSER AIRING.

There will be satisfaction over the fact that the charges against Secretary of State Houser are to be aired in court. It is now accepted by all parties that there is no public matter in this state more material than a final determination as to the truth or falsity of the accusation that a high state officer offered to bribe another high officer of the state.

The Tribune believes in fair play. It believes that in the consideration of this matter the possible, if not apparent, existence of a political motive should be remembered; it believes that Mr. Houser should not be condemned without a fair trial. It believes that if he is found to have actually been guilty of the alleged conduct, he should be proceeded against with all the machinery of the law and that the fact that exposure came as the result of a political fight should not operate to mitigate the extent of his punishment. But great care should be taken to fairly scrutinize the evidence; existing conditions demand that there be taken every precaution to give a square deal to all.

### JUST LIFE

#### The U. C. T. Colors.

A white man can feel blue today without being unpopular.

#### The Hustlers.

When you see a busy Bee—  
Sell whom e'er he goes to see  
Just bet your filthy lucre he  
'S a member of the U. C. T.

Perhaps it would be well to march the parade past the handsome plant of the "People's Gas company" today?

Now the packers are shedding copious tears for the hard luck which is to fall on the "stock raisers."

A gentleman returning from Chicago today says that coincident with the invitation of the packers to the public to visit their slaughter houses, thousands of men are busy cleaning up the filth.

#### The Call of the "Wild."

It is h—(ferce) when the band starts playing  
And the music fills your ears  
And you hear the crowds 'a'cheering,  
And you dream of those tall beerz,  
You hear the crowds 'a' laffin'  
An' the flags all wavin' free.  
You want to be among 'em  
And shout an' laugh—Oh, Gee!  
When your spirits get to risin'  
And you want to pass up work,  
A rasping call for "copy"  
Shuts your wind off with a jerk.

#### All of 'Em Kings.

With no disrespect to his governorship we don't mind expressing the opinion that "Yim" will not set the town afire while here for there is in La Crosse today a convention of men, everyone of whom is worthy to be governor, yea—president.

Charlie Chamberlain does sincerely hope that "the papers won't get it in 'W. C. T. U.'"  
Well, that's "always the fault of the 'fool compositor,' Charles."

Ain't it tough to have to stay in a musty old office and grind out a hard day's work, with a half a dozen bands dusting past every few minutes?

Parents of high school students are sick enough of the "half day session" to warrant it's abolishment. Those early breakfasts and late dinners are a long ways from popular.

## GO TO STATE GOLF TOURNEY

Several La Crosse "Knights of the Links" contemplate going to Janesville to participate in the state golf tournament.

President McGiffen and Secretary J. P. Baker of the Wisconsin State Golf association announce that plans for the coming state tournament are

now complete. Two new features, consisting of a novel contest for old men and one for women, have been arranged for and promise to give much amusement. The links have been much improved this summer, the grounds beautified and the club house made ready for the reception of the guests. Several of the prospective contestants have already made arrangements for quarters at the Myers hotel for the tournament weeks, and indications point to a large number of enthusiasts from all parts of the state being present. The entries close the Sunday before the tournament opens, which is the last week of June.

## LA RUE IS BETTER

Pearl La Rue, the third baseman for the Wausau team from Fort Wayne, Ind., who was hit in front of the ear by a baseball yesterday, is getting about ready and is able to be around today although he still feels very sore.

Dr. Ryan attended him. Mr. Carey brought him from the grounds to the city in his auto. When first struck it was thought that the blow might be fatal. He dropped to the ground like a log and was somewhat delirious last evening.

## SPARTA AFTER '07 U. C. T. MEET

The first city in the state to announce itself as a candidate for the next convention of the U. C. T.'s is Sparta.

The delegation reached this city this morning, forty strong, and will not leave a stone unturned in the way of getting the 1907 U. C. T. convention.

Although Sparta is the smallest city in the state which can boast of a council, this city of 4,000 inhabitants has a council of forty and they are all hustlers.

## NEILL REPLIES TO HARANGUE OF PACKERS' MAN AT WASHINGTON

Washington, June 8. — The house committee on agriculture continued its hearing on the Neill-Reynolds meat inspection report. Thomas E. Wilson, manager for Nelson, Morris & Co., and representing the large Chicago packing houses, continued his remarks on the Beveridge amendment providing for meat inspection. His remarks were devoted entirely to criticism of such sections of the Beveridge bill as he objected to.

Objected to by Wilson. Representative Adams summed up the objections Wilson had made to the Beveridge amendment and Wilson assented to each in turn. The first was the objection to placing the cost of inspection on the packers; the second requiring dates on labels; third, the sanitary requirement, which leaves discretion to common carriers to reject shipments if it regards the packing house from which they came as unsanitary; fourth, the use of adulteratives describing meat unfit for food; fifth, the restriction on preservatives in such form that any inspector might put his own interpretation on what was injurious; and sixth, the requirement that the contents of canned product shall be set forth on the label.

Dr. Neill Goes on the Stand. Neill was then put on the stand. Scott of Kansas wanted to know the training Neill had previously had to prepare him to make the inquiry. "I simply went to be a man of average intelligence," he replied. He said he had worked in a Chicago packing house for six months in a university settlement. Neill related a parting interview with Dr. Tyson, consulting veterinarian in Chicago, representing the packers. Dr. Tyson, he said, suggested that Neill and Reynolds go to Washington, make no report, but inform the packers of the conditions found and suggestions for remedies; then to wait thirty days and come back and see if conditions had not been bettered. This, he indicated, was to prevent injury to the trade. Neill said he replied that he was not authorized to make any trade or deal. He then presented two letters he had received from Dr. Tyson along the same lines.

### TAKES ISSUE WITH WILSON

Declares That the Floors Were Not Scrubbed for Weeks.

Neill rather discouraged a visit of the committee to Chicago at this time as many of the conditions complained of were due to negligence and could have been remedied immediately. He denied the statement of Wilson that the floors were scrubbed daily. The dirt on some of the rooms was caked on the floor and had not been washed for weeks. Neill was asked: "You take direct issue with Mr. Wilson on the fact that these rooms were not cleaned?" "Yes, sir, I do. There were floors there that were black. There was no ventilation."

Hansen wanted to know the objection to artificial light. "We are working right here in this room with artificial light and have fifty others right in this capital," he replied. "My opinion is," replied Neill, "that no one should be required to work eight hours a day by artificial light." He could not exactly specify the rooms that were dirty, but said he remembered in particular one cooking room was dirty, and he remembered walls, particularly in the

Quality—Individuality—Purity—

The Quality of the Malt decides the body of a beer. Blatz Malt is produced in the brewery's own malt house by trained Malsters (years in Blatz service). "Not only how much malt—but how good" is here the invariable rule. This method is expensive, but the desired result is always achieved—the vital ingredients of the malt are thereby brought out and retained. To the Blatz malt is due the prevailing full-bodied state of Blatz Beer.

The Hops used in the brewing of Blatz Beer are rich in aromatic properties and tonics (hop bitters), which lend to the beer that fragrance which captivates lovers of the beverage. The tonics act as a mild stimulant to the digestion. Blatz Beer is perfectly fermented and ripened in the coldest and cleanest cellars extant.

The most skilled masters zealously guard "Blatz" individuality. The paramount object being to maintain with absolute uniformity every characteristic that has these many years meant Blatz Quality.

entrances, that were sticky with dirt, and a pillar that you could scrape dirt from with your knife.

Lurimer asked a number of questions to find out if Neill saw meat in transit from the curing vats to the cooking vat. But Neill would not answer this directly. "I did not follow the meat in that way," he said. "We came upon meats in all stages, not knowing where it came from or where it was going." He took issue with Wilson's statement. One instance he remembered specifically in the Nelson Morris house. He saw one of the men who had just finished his bending walk over the dirt on the floor to a pile of meat on the floor, climb on to the pile with his feet, sues and hands, pick up a piece and throw it fifteen feet on the floor to his bench. This he said was directly under the eye of the superintendent.

### BANKRUPT'S PETITION FOR DISCHARGE.

In the district Court of the United States for the Western District of Wisconsin.

In the matter of James H. Hess, bankrupt, in bankruptcy.  
To the Honorable A. L. Sanborn, Judge of the District Court of the United States for the Western District of Wisconsin.

James H. Hess of Galesville, in the county of Trempealeau, and state of Wisconsin, in said district, respectfully represent that on the 28th day of Dec. 1904 last past, he was duly adjudged bankrupt under the acts of Congress relating to bankruptcy, that he has duly surrendered all his property and rights of property, and has fully complied with all the requirements of said acts and of the orders of the court touching his bankruptcy.

Wherefore he prays that he may be decreed by the court to have a full discharge from all debts provable against his estate under said bankruptcy acts, except such debts as are excepted by law from such discharge.

Dated this 4th day of June, A. D. 1906.

JAMES H. HESS,  
Bankrupt.

### Order of Notice Thereon.

The first of a series of games to be played with Wausau was forfeited to the champions yesterday in the ninth inning after one of the most interesting games of baseball ever witnessed in the city.

The score was 1 to 0 in favor of the Lumbermen and La Crosse had three men on bases when Manager Malven waited the call of time and led his team off the diamond after Umpire Cross declared Killian hit by the pitcher so that he walked to first and thus forced Medwysky who was on third over home plate and tied their score.

After the first of the ninth inning when the visitors had a score of 1 to 0 in their favor, the first man up for the "pennant winners" was Medwysky who reached first on an error made at third by Pappenfus who fumbled a fast grounder. Cahill then fanned and Konetchy, the next man up, was hit by the pitcher during which time Medwysky had found his way to second. Schmeiberg then went to bat for Klock and after a long conference he was given his base on balls. There were now three men on bases and the game was intensely exciting. Killian was the next man up and every one was waiting for something in the shape of a three bagger when the pitcher hit him in the arm and Umpire Cross at once awarded him first base. The Wausau team protested and said that Killian had struck at the ball. Time was called by Umpire Cross and the game was awarded to La Crosse by a score of 9 to 0.

## AT THE THEATRES

The Freeze Bros. at the Bijou this week are the originators of the distinct novelty act they are presenting, spinning and juggling tamborines on hands, knees and feet simultaneously. For four years they were one of the big feature acts of the Primrose and West minstrels. After closing their engagement with this organization they toured Europe with Barnum & Bailey's circus. Mr. Lawrence Freeze now wears for a watch charm a twenty franc gold piece, given to him at Monte Carlo by an admirer. Any one who has had the pleasure of seeing their clever act can see how difficult it is. They keep thirty-two tamborines in motion at one time and from a spectator's point of view one will wonder at the perfect control they have of their instruments, hands, feet, knees and head all moving in a different direction at one time. The boys are also as clever dancers as has ever been here, doing the neat finished clogs in hard sole shoes, in the most finished manner. The boys although proud of their achievement are not in the least unsocial and make lots of friends everywhere they go. The Volcanic Eruption of Mount Vesuvius on the Edison life motion picture machine is a wonderful reproduction of that awful disaster. The Bijou is getting the crowds and is the most popular place in town.

## IS LA CROSSE A FAIR BASEBALL TOWN?

### Secretary McDonough and Manager Hawley Give Interviews Concerning the Situation

La Crosse went to the baseball park this afternoon intent on winning today's game from the Lumberjacks. Manager Hawley is in the box. When asked prior to the game for some comment on the outcome, he said, "All I want is for my boys to get out and play ball; they can win over the visitors if they are in any kind of form."

Wausau is playing fast ball, and the fans appreciate to win the Pinks have got to get down to business again. Coupled with a little streak of hard luck and a bit of the yellow streak in the presence of a mob that filled the grandstand at Freeport, the boys have had a series of "off days" that are certain to come to any team once or twice during a season. Steady work after the first inning yesterday has convinced Manager Hawley that they are coming out of their trance, and will deliver the goods.

"I have noticed," said Mr. Hawley yesterday, "that pretty nifty players are inclined to show the yellow streak when they have a rough audience of people against them in a strange town. In La Crosse a visiting player gets a hand from the grand stand for a good play as readily as a home player does; in Freeport the crowd hoots and howls the visitors down, never gives them a hand, and even insults them on the streets. It isn't the players in Freeport; the team there is a gentlemanly lot of fellows in the main. It is the crowd of narrow minded people who let themselves think that rowdism is patriotism, that makes the game unpleasant."

After the team left Green Bay, the Pinks lost their hitting streak. Two home runs have made Konetchy too anxious to tear the cover off the ball. In yesterday's game he had two chances to win with a hit, but in trying to "kill the ball," he managed to strike out twice, and his one connection with the ball landed it in a fielder's mitt. Dutchy Vaughn started out badly with an error that cost three runs, but got his back up and played ball. Clock was fast and sure, having probably left his off streak at Freeport.

The fact that Freeport is in the lead by a single game is no cause for discouragement. The locals are a better average of players, a little swelling of the head here and there barred, than other team in the league. Had they played at Freeport as they played at Green Bay, they would have made it four straight with the Illinoisans. It cannot be expected that they will win every game, and the fans are advised not to blow too hot during the winning streaks or too cold during losing streaks.

One of the most disappointing features of the game is the lack of attendance in La Crosse. Secretary McDonough is authority for the statement that La Crosse is absolutely at the bottom of the heap in attendance up to date. Mr. McDonough puts it this way:

"The business men of La Crosse are a unit in agreeing that baseball is a fine thing for the city, but they are not supporting the game. When the subscriptions for the team were taken, the retail merchants contributed \$185.00 to the fund, while the wholesalers gave about \$2,000. Of course the wholesalers are, as a rule, better able to make liberal contributions, but it must be remembered that there are about twenty retailers to one wholesaler. To carry the point further, the proportionate attendance of wholesalers and retailers is in about the proportion of the original contributions. There are enough businessmen interested in baseball; the crowd that meets the cars to find out how the game came out is usually larger than the crowd that the cars bring from the games. Certainly the number who call up central during and after the game to find out how

both shot and fatally wounded her and fired several wild shots at her daughter, Mrs. Lena Kern. Eschboch and his wife are, each, 60 years old. Mrs. Eschboch owns the farm on which they lived and a year ago ordered him to leave it, which he did. He went to the farm, demanded to be allowed to return and began shooting. Eschboch fought off three laborers who tried to stop him and threatened the police who arrested him where he was hiding in the barn. He also tried to cut his throat.

### ORIGINAL SON OF LIBERTY IS DEAD

Indianapolis, June 8.—Word has been received of the death at Fond du Lac, Wis., of Harrison H. Dodd, at the age of 82 years. He leaves surviving him four children—Mrs. W. E. Jacobs and Miss Jean Dodd, of Fond du Lac; H. B. Dodd, of Madison, Wis., and R. P.

### ARE WE SUPPORTING OUR TEAM?

Will not the readers of the Tribune read the plain facts concerning the local base ball situation. La Crosse is the largest city in the state league. Last year it won the pennant over the five smaller cities, but it trailed in the matter of support. It was FIRST in ability, and it was FOURTH in attendance.

This year La Crosse is again the largest city in the league. It's team are capable of again winning the pennant if properly supported. So far they have been in FIRST PLACE most of the time, but they are SIXTH in attendance. La Crosse is a city of 30,000 inhabitants. To make its base ball team pay expenses requires a total attendance during the entire season in which 60 games are played at home of 25,000. So if FIVE SIXTHS of the people of La Crosse attended but ONE game each in the series of SIXTY GAMES, the team would be on a paying basis.

The Tribune earnestly wants to see La Crosse's ball team appreciated and supported by the home people. Will not every man, woman in La Crosse make it a point to see that ONE GAME. Shall it be said that our city of 30,000 people let its baseball team become a failure because it could not furnish a total attendance of 25,000 people in a series of SIXTY GAMES? Shall we let that record stand and be published to the world? ... The boys are here for a series of twenty games. Let us all turn out and demonstrate before they leave the city that La Crosse proposes not only to have a winning ball team but to SUPPORT IT.

our home patriotism that this is true." The reflections of Mr. McDonough "com" without the sugar-coating of diplomacy. They are straight from the reel, and are backed by figures. It is often not wise to make sweeping criticism and it is not presumed that the secretary means to be unpleasant in an idle spirit; it is his purpose to put the real facts up to the business element of La Crosse.

The attendance today is large, but that fact is no doubt due in part to the advertisement that the delegates to the U. C. T. convention are to attend in a body.

### SHOOTS WIFE WHO TURNED HIM OUT

New York, June 8.—Because his wife, Margaret Eschboch, had declined to admit him to her home at Fort Schuyler, on Long Island sound, Edmund Esch-

boch shot and fatally wounded her and fired several wild shots at her daughter, Mrs. Lena Kern. Eschboch and his wife are, each, 60 years old. Mrs. Eschboch owns the farm on which they lived and a year ago ordered him to leave it, which he did. He went to the farm, demanded to be allowed to return and began shooting. Eschboch fought off three laborers who tried to stop him and threatened the police who arrested him where he was hiding in the barn. He also tried to cut his throat.

Wausau 4, La Crosse 2.  
Oshkosh 4, Green Bay 1.

### Games Today.

Wausau at La Crosse.  
Eau Claire at Freeport.  
Green Bay at Oshkosh.

### Games Tomorrow.

Same as today.

### Bad Beginning.

Wausau landed on Hodson, the new pitcher in the first two innings yesterday and poor work in the field permitted the visitors to run in three scores in the first and one in the second. George replaced Hodson in the third and held Wausau down. However the lead was too great and La Crosse was able to get two runs during the remainder of the game.

The game was an exciting one and was well played with the exception of La Crosse's work in the early part. Score:

La Crosse	0 0 1 0 1 0 0 0	—2 6 3
Wausau	3 1 0 0 0 0 0 0	—4 6 5
Batteries:	Hodson, George and Killian; Miller, Gasper and Kernell.	

### Freeport 6, Eau Claire 4.

FREEMPORT, Ill., June 9.—Six to four was the result of yesterday's game between Freeport and Eau Claire. Ed Reid made a home run that brought in three men. It was announced that Tebeau was released as manager of the Wisconsin team. He went to La Crosse last night to take the place of Cross as umpire, who has not been giving satisfaction. Catcher Assmussen is the new manager for Eau Claire. Score:

Freeport	0 1 4 0 0 0 1 *	—6 7 2
Eau Claire	1 0 0 0 0 0 3 0	—4 5 3
Batteries:	Warhop and Erickson; Friske, Freitag and Assmussen.	

### Oshkosh 4, Green Bay 1.

OSHKOSH, Wis., June 9.—A batting rally by Oshkosh in the fourth inning, aided by an error by Cuppin, gave Oshkosh the second game of the Green Bay series. Score:

Oshkosh	0 0 0 4 0 0 0 *	—4 8 2
Green Bay	0 0 0 0 0 0 0 1	—1 5 1
Batteries:	Flynn and Moore; Schukowski and Oran.

### A NOTRE DAME LADY'S APPEAL.

To all knowing sufferers of rheumatism, whether muscular or of the joints, sciatica, lumbagos, backache, pains in the kidneys or neuralgia pains, to write her for a home treatment which has repeatedly cured all of these tortures. She feels it her duty to send it to all sufferers FREE. You cure yourself at home as thousands will testify—no change of climate being necessary. This simple discovery banishes uric acid from the blood, loosens the stiffened joints, purifies the blood, loosens the stiffened joints, purifies the blood, and brightens the eyes, giving elasticity and tone to the whole system. If the above interests you, for proof address Mrs. M. Summers, Box 4227 Notre Dame, Ind.

### PORTLAND BLOCK IS DESTROYED

PORTLAND, Ore., June 8.—The fire last night destroyed the block bounded by Wilson, Roosevelt, Nineteenth and Twentieth streets. The loss is \$100,000. Four business blocks were wiped out.

### THREE DROWNED WHILE FISHING

ST. PAUL, June 8.—O. J. Norby, Dennis McGinn and John Shea were drowned in Bass lake this morning. The boat capsized while they were fishing.

### FATAL CLASH OF PENNSYLVANIA STRIKERS

Indianá, Pa., June 9.—The new mining town of Ernest on the Buffalo, Rochester and Pittsburg railroad, five miles from here, was the scene early in the day of a conflict between a detail of state constabulary and striking coal miners in which two strikers were killed and six others wounded.

Shortly after daylight a body of strikers, headed by a brass band, marched from Anita mines in Jefferson county to receive one of the mine officials expected from Punxsutawney. On the way to the station the marchers encountered a detail of twelve members of the state constabulary. As they passed a member of the band fired his revolver at the troop.

### Constabulary Itelalates.

No one was struck but the constabulary immediately retaliated with a volley from their carbines. When the smoke cleared eight strikers were lying on the ground and the others had fled precipitately down the hill. Two of those shot were killed instantly and the six others were seriously wounded. The latter were at once removed to a hospital and the dead were carried to Ernest. All is now quiet and no more trouble at this time is apprehended. The mines at Ernest are owned by the Buffalo, Rochester and Pittsburg

Coal and Iron company. On April 1 a strike was inaugurated and the men have been out ever since. Three weeks ago the plant was started non-union and a detail of the state constabulary has since been guarding the coal company's property. At present about one half of the regular force of 400 men are at work in the mine.

### Ohio Miners Disappointed.

Dillonvale, O., June 8.—The miners in this district are a disappointed lot since the adjournment of the Columbus joint convention without an agreement. With a great many of them in straitened circumstances, and no funds in their treasury it is doubtful if they will remain out much longer. Preparations are being made by the Robly Coal company at Ramsey and Roblyville and by the M. A. Hanna Coal company at Dillonvale to have some operations. Both claim to have peaceable from a sufficient number of their striking employees to resume work. Everything is quiet, and the strikers are peaceable. Only half the number of troops sent here Monday are now in the district, six hundred having gone home during the night.

### SOFTNESS OF SEALSKIN.

Is Rivalled by Human Hair Where Dandruff is Eradicated.

Sealskin is admired for the world over for its softness and glossiness; and yet the human hair is equally as soft and glossy when healthy; and the radical cause of all hair trouble is dandruff, which is caused by a pestiferous parasite that saps the vitality of the hair at its root. Newbro's Herpicide is the only preparation that is fatal to the dandruff germ. Without dandruff there is no falling hair, but a luxuriant growth of glossy, soft hair is certain. Sealing the scalp won't cure dandruff. Kill the dandruff germ. Thousands of women owe their beautiful suits of hair to Newbro's Herpicide. Sold by leading druggists. Send the stamps to The Herpicide Co., Detroit, Mich.

The United Traveling Men's convention which was held here two days this week was the all-absorbing affair. The streets were in gala attire, flags were floating from private residences and public buildings while hundreds of yards of bunting was used to decorate in various ways. The weather was simply perfect and could not have been improved upon if it had been especially ordered for the occasion. The visitors were given a cordial welcome, many being entertained at private homes while others found accommodations at the hotels which were filled to overflowing, every available place being utilized. Friday afternoon there was a reception for the ladies at Masonic Temple at which a large number were present. The rooms were prettily decorated and as each guest arrived she was presented with a floral souvenir. Ice cream, cake and punch was served from small tables attractively arranged. In the evening there was a banquet and dance at Germania, about four hundred and fifty being in attendance. The supper was under the supervision of Mr.

M. S. Fairbairn with an able corps of assistants. The hall was decorated with the colors of the order, blue, white and gold festooned around the balcony. The stage was banked with ferns, palms and potted plants behind which was stationed Kreutz's orchestra.

Automobile rides, launch rides and dinners were other forms of entertainment with which the guests were regaled. All were more than satisfied with the results of the convention and the guests will carry home the remembrance of the pleasant hours they spent in our beautiful city, and many new friendships were formed which will be a source of pleasure for years to come. Among the visiting ladies were Mesdames J. C. Faizer, J. E. Euens, H. W. Baker, J. Sneden, H. Enckenhansen, R. W. Bowen, H. Sultan, A. Scholtz, W. J. Zirbe, S. J. Morris, R. Meyer, F. K. Talbot, F. Flock, P. M. Rumsey, the Misses Darling, Edna Talbot, Pearl Eaton, Sparta, Mesdames Mensel, Klein, Hemmens, Holberg, DeVroey, Green Ray, Mesdames Awe, and Mahoney, Oshkosh; Mrs. Button, Milton, Mrs. McMullen and Miss Eaton, Tomah; Mesdames Bower and Norris, Bangor; Mrs. Joseph Klein, Watertown; Mesdames Padeske, Dassing, Warri-mond, Daehling, Kunde, Milwaukee; Mesdames Bostwick, Bonell, Dean, Eau Claire; Mesdames Gay, Elliott and Baer, Madison; Mrs. George Met-calf and Mrs. Van de Water, Janes-ville.

### WEDDINGS.

A pretty wedding took place, Wednesday morning at De Soto when Miss Agnes Loftus, a former teacher of the La Crosse public school, was united in marriage to Nathaniel Frey, master mechanic of the Burlington road by Rev. Kramer, pastor of Genoa parish. Mr. A. Benedict was best man and Miss Elizabeth Gillespie was bridesmaid and Miss Lillian Borreson maid of honor. Among the many handsome presents received by the bride and groom was a four pieces set of solid silver presented by a number of the employees working under Mr. Frey. Mr. and Mrs. Frey left on a special attached to the noon Burlington train for an extended wedding trip. They go from here to Denver and from there to Los Angeles.

### SURPRISE.

Thursday evening Mr. Henry Rogers, residing corner of Seventh and State street, surprised his wife by inviting in about thirty of his friends and neighbors to celebrate her birthday. Games of various kinds were played during the evening and dainty refreshments served.

## HOVOC WORKING STORM SWEEPS ONTARIO

Detroit, June 5. — Eastern Ontario was swept by a terrific wind and rain storm, and as a result all wire communication between this city and Canadian points east of Chatham, about sixty miles from here, was cut off. Chatham suffered severe property loss from the storm, which unroofed houses, blew down trees, felled wires and filled the streets with debris; but no loss of life resulted and no one was seriously hurt. Considerable property damage is reported from small towns and farms between here and Chatham.

A torrential rain storm, accompanied by a forty-mile wind, swept Detroit just before 6 p. m. The rain fell in less than an hour measured 1.36 inches, and the wind in five minutes sprang from a gentle six-mile breeze to forty miles an hour. Trees were felled all over the city, causing severe damage to wires, and putting several hundred telephones out of commission. Unconfirmed reports of loss of life on the river were current. One of these reports was that eight lives were lost on the river near Wolf's, a resort on the Canadian shore a mile above the head of Belle Isle; another was that a child had been picked up by the wind and swept off the Belle Isle bridge.

is kept regularly in stock. Medical authorities have long been aware of its reliability, purity, its wonderful mellow richness, its invigorating tonic properties and its high food value.

Dr. James Evelyn Pilcher of Carlyle, Pa., permanent secretary, Association of Military Surgeons of U. S. says:

"Every one knows that malt beverages are tonic as well as slightly stimulant and of the highest advantage in cases of debility and wasting disease."

Peerless contains about 2 1/2% of alcohol, not enough to hurt anyone, yet sufficient to aid and promote the digestive process of solid foods. It has been brewed for more than 50 years from barley grain and the juices of imported hops, by the famous "Gund Natural Process." Won gold medal at St. Louis Exposition for highest excellence.

Sold at all hotels, buffets, restaurants and on dining cars. Bottled only at our brewery. Ask for it at any high class place and it will be given to you. It is a superior home beer. Try a case delivered. Sparkling, wholesome, invigorating. Telephone, write or call.

## MAYOR OF FRISCO THANKS PEOPLE AND DENIES EXAGGERATION

Temporary Office of the Mayor, San Francisco, June 8, 1906.

Unable to address, personally, the thousands of generous men and women who, during the past few weeks, have sent inquiries from every city, town and hamlet in the United States concerning the future of San Francisco, I have come to the conclusion that there is but one way to thank them, in behalf of the city of San Francisco, for their solicitude. That way is through the medium of the press.

I desire to say to all persons that the people of this city are profoundly grateful for all that has been done for them, by any and by all who have contributed to their needs during the exceptionally trying period that has followed April 18, 1906.

The exhibition of kindness, everywhere manifested, has been extremely creditable and illustrates the unity of the people of the United States in sympathy, a condition arising from our common history, common tendencies, ties of blood, and intertwined and inseparable interests as a nation.

Exaggerated reports, sent out during a period of much excitement, have conveyed the erroneous idea, as manifested by publications in the newspapers outside of California, that San Francisco was practically obliterated by earthquake and fire.

The fire swept one-seventh of the area of San Francisco, leaving ten-elevenths unscorched and standing. The earthquake of April 18 last damaged some buildings, those that were poorly constructed, but did not harm structures of the more modern type. The "skyscrapers" emerged from the earthquake as good as new. The thousands of residences in the city, with the exception of a few resting on "made land," escaped with little more injury than the shaking down of chimneys.

Our great loss was through fire, which, starting simultaneously in sev-

eral parts of the city and fanned by breezes from the ocean, proved to be beyond the control of our fire department, which would not have been the case if our water supply had been adequate to meet the great emergency.

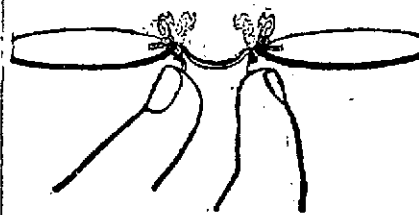

Such a calamity as befell Boston, Charleston, S. C., and Baltimore—such as might afflict any large city in the world—came to us a little more than a month ago. While the ashes were losing their heat and while fires smoldered in scores of localities, walls that had crumbled were torn down, incalculable quantities of debris were removed from the streets that travel and business might be immediately resumed; contracts for building splendid modern structures were awarded while the air remained clouded with the smoke of a conflagration that included thousands of acres of highly-improved real estate.

In a fortnight after our great fire, centers of retail trade that existed were largely utilized and others were planned with all speed consistent with good business judgment. Hardly later than this plans were considered for the improvement and increased safety of this city, involving the creation of new streets and the widening of others, to insure an indestructible and more splendid metropolis for the Pacific Coast. Capital and labor, employers and employees are working heartily together for the general good. All antagonisms have been forgotten and obliterated in the presence of our emergency. All classes are co-operating for the building up of a safe, greater and more beautiful San Francisco.

The immediate future of this city will be marked by the initiation of numerous enterprises of magnitude that will keep the people busy and provide ready money in wages, salaries and profits sufficient to lay deep the foundations of unexampled prosperity. In every line opportunities will be afforded to the enterprising,

the skillful and the industrious to acquire competencies. San Francisco is on the eve of arising and the bow of hope completely spans her sky.

What happened in San Francisco since and including the "days of '49" is history. The days near at hand contain possibilities for the making of a wonderful chapter of rare interests, typical of the genius of the people. Surely a glorious future awaits our city by the Golden Gate. I hardly need call to the attention of my fellow countrymen the fact that the port of San Francisco is a great trade gateway, the importance of which to mankind is augmented continually by the growth of the population, products and needs of the United States, by the enhanced facilities furnished by large modern ships of great carrying capacity; and the operation of transcontinental railways that link the seas and move overland our products, wares and manufactures, bringing rails and ships together at tide water on two oceans. God made this gateway. He placed

upon it the sign of greatness. Here is the ordained site of a great city. Its site and advantages are not equalled elsewhere in our entire country.

This would avail less largely if our citizens were less dauntless, less filled with hope, less determined to make progress, and if the State of

California were less fruitful in resources. The right spirit is found in the people of San Francisco. They have been tried by fire and have been proved to be worthy of their inheritance of opportunities.

In less than a month from the date of their disaster they have succeeded in resuming their accustomed lines of industry.

The commercial and savings banks, custodians of many millions of dollars, have unlocked their vaults and are paying to all comers their demands in full, dollar for dollar.

Scores of new buildings have arisen in every business locality since the fire, temporary in their nature, it is true, but adequate for the accommodation of commercial houses while they are rebuilding as amply as if no fire had come to interrupt or destroy.

The entire water front, with all its wharves, docks, etc., was saved from the fire. The wheels of commerce have not been impeded. Exports and imports move freely.

Into the lap of this city the great interior valleys of California unin-

terruptedly pour their wealth. The commerce of a world pays us tribute.

We cordially invite the people of all our common country to come in with us and help to rebuild San Francisco and to share freely in the great profits and advantages that will result to all.

With gratitude,  
(Signed) E. E. SCHMITZ,  
Mayor of San Francisco.

## KIDNEY DISEASES CAUSE ONE-THIRD OF THE TOTAL DEATHS.

When the Kidneys fail to perform their functions properly, by not straining out the poisonous waste matter from the blood as it passes through them, the poisons are carried by the circulation to every part of the body, deranging the different organs. This causes heart trouble, stomach trouble, sluggish liver and a host of other ills, all due to deranged Kidneys.

## FOLEY'S KIDNEY CURE

corrects irregularities and cures Kidney and Bladder diseases in every form, tones up the whole system, and the diseases that have resulted from disordered Kidneys disappear, because the cause has been removed. Commence taking FOLEY'S KIDNEY CURE at the first sign of danger. Do not risk having Bright's Disease or Diabetes.

## CURED OF BRIGHT'S DISEASE.

Mr. Robert O. Burke, Elsmira, Saratoga Co., N. Y., writes:—I am glad to have an opportunity of telling what magnificent results I have had from using FOLEY'S KIDNEY CURE after having tried other advertised medicines and several physicians. Before I began I had to get up from 11 to 20 times each night to relieve my bladder. I was all bloated up with dropsy and my eyesight was so impaired that I could scarcely see one of my family across the room. In fact, I was so badly used up that I had given up hope of living when I was urged by a friend to try FOLEY'S KIDNEY CURE. One recent bottle worked wonders, and before I had taken the third bottle the superfluous flesh had gone, as well as all other symptoms of Kidney trouble. My friends were surprised that I was cured, as they all thought I was going to die. Every few days some one comes from miles away to learn the name of the wonderful medicine that cured me of Bright's Disease, and not one that has tried it has failed to be benefited.

## Packers' Haste to Clean up Filth Make Whole Country Laugh

Washington, June 9. — President Roosevelt has sent to the house committee on agriculture a report made by a committee of the department of agriculture which investigated Chicago packing house conditions. The accompanying report with a letter from (Chicago), the name of the author of which he withheld, but says he will give it to the committee if so requested. The president says of the report of the agricultural department committee that—

Compares the Two Reports.

"Some of the ground traversed by Messrs. Neill and Reynolds is not touched upon in the report of the committee of the agricultural department. As to the ground covered in common by the reports of the two investigating committees there is no conflict in substance as to the important matters although there is a marked difference in emphasis, this being particularly due to the greater length and detail of the report of the committee of the department of agriculture. In my judgment the emphasis of the report of Messrs. Neill and Reynolds is abundantly justified by the facts.

Change for the Better Shown.

"To show the immediate and extraordinary change for the better which the mere fact of their investigation is already bringing about in the condition of the packing houses in Chicago it is only necessary to instance the following portions of a letter received from a most competent and trustworthy witness in Chicago, whose name I will give the committee if it so desires." The letter is dated Chicago, June 1, and says:

The Awakening Is Great.

"On Monday I began a tour of all the great packing houses, going first to Libby's, then Swift's. Tuesday all the morning I caught a glimpse of the awakening at Armour's. In the afternoon visited the plant with the superintendent. Wednesday I rested and contemplated the awakening of Packingtown. It is miraculous. Thursday I did Nelson Morris with the superintendent. Nelson Morris has done much to make things better. By the time the next inspecting party arrives they will have still more new

inventories, toilet rooms, dressing rooms, etc. Cuspidors everywhere, and signs prohibiting spitting. In most the awakening seemed to come by force from without. There was the slightest indication that the 'still small voice' was at work also.

CLEANING UP ON EVERY HAND  
Would Be Amusing If Not So Nearly  
Tragic, Is Declared.

"At Armour's I made no pretense of making an investigation, but frankly announced my desire to see things for myself, and to get a fresh impression of conditions, as I had not seen the plants since before the strike. On every hand there was indication of an almost humorous haste to clean up, repave and even to plan for future changes. Brand new toilet rooms, new dressing rooms, new towels, etc., etc. Swift's and Armour's were both so cleaned up that I was compelled to cheer them on their way by expressing my pleasure at the changes. The sausage girls were moved upstairs, where they could get sun and light, they to have dressing rooms, etc.

"I asked for showers and lockers for the evening workers at Armour's, and got a promise that they would put them in. The canning and stuffing room, chip beef and beef extract at Armour's seemed really quite good. In all of these rooms the girls work. At Libby's the girls are to be put into a blue calico uniform, which they will buy at half price. They are putting in toilet rooms which they say are temporary, and that when the buildings are remodeled they will have these put in a better place. The haste towards reform would have been amusing if it were not so nearly tragic.

"They tried to win my help on the ground that loss of foreign trade would mean hardship for the workers in my neighborhood, and I must say I do share this fear; but I cannot see the wisdom of my coming out publicly and saying that I saw indications of an awakening, for I want the changes to be radical and permanent, even though we all have to suffer for the present."

The president then proceeds: "I wish to repeat that my investigations are not yet through. I am not prepared

to make a final statement either as to so much of the complaints as concern the management of the bureau of animal industry, or as to certain of the graver charges in connection with the adulteration of meat products as well as other matters. But enough has been developed in my judgment to call for immediate, thorough-going and radical enlargement of the powers of the government in inspecting all meats which enter into interstate and foreign commerce.

"Unfortunately the misdeeds of those who are responsible for the abuses we design to cure will bring discredit and damage not only upon them but upon the innocent stock growers, the ranchmen and farmers of the country. The only way permanently to protect and benefit these innocent stock growers, the farmers and ranchmen, is to secure by law the thorough and adequate inspection for which I have asked."

Night Base Ball by Electricity.  
Paris, Ill., June 9.—Night base ball, as introduced here this week by the Cherokee Indian club, made such a hit with the public that the management of the local club will at once purchase a lighting plant and schedule a number of night games for the summer season.

Fatal Explosion of a Stove.  
SYRACUSE, N. Y., June 9.—The explosion of an oil stove in an apartment resulted in the death of Mrs. Desmond Davis, Mrs. Homer Alexander, sister-in-law of Mrs. Davis, and her 3-year-old daughter, Gladys.

## New Premier of Russia is to Get Walking Papers for Incompetency

St. Petersburg, June 9.—According to reliable reports from Peterhof, Emperor Nicholas has decided to retire Premier Goremykin. From the first it was apparent that M. Goremykin did not possess the capacity or skill necessary to steer the ship of state in the present crisis, and the emperor, who is extremely dissatisfied with the premier's failure to make headway toward a rapprochement with the lower house of parliament, is ready to sacrifice him.

Conflicting Councils at Court.  
The emperor however, seems to be confused by conflicting councils. A few of his advisers are urging him to make a frank surrender and accede to parliament's demand for a ministry from the opposition majority. These influences are hardly expected to prevail against the party headed by General Trepoff, which believes that no further concessions should be made.

Cabinet in Open Rebellion.  
The cabinet itself, under the leader-

ship of M. Kokovoff, minister of finance, and M. Stchinsky, minister of agriculture, the rivals of M. Goremykin, is in open rebellion, and with the support they are receiving from the court the rebels are confident of being able to remove Goremykin. Should Stchinsky succeed in the premiership, Bolzard, formerly chief of General Trepoff's chancellery of Moscow, will be the candidate for minister of the interior. It is understood Mr. Gurko stepping into M. Stchinsky's shoes.

Agrarian Disorders Extend.  
Dispatches from the interior continue to be gloomy and show that the gradual extension of agrarian disorders and strikes affects twelve provinces. The latest disturbances reported are at Kiev and Tver. Numerous collisions between peasants and rural guards have taken place, but nothing in the nature of a mass movement has occurred.

Serious Charge Is Made.  
A sensation has been caused by the disclosures of M. Vladimiroff, a correspondent of the Twentieth Century, formerly the Russ, who investigated the case of Mlle. Spiridonova and is in the Baltic provinces investigating the repression there. He declares that six of the eight men executed at Riga were innocent and says they were forced to confess by tortures which put the Spanish inquisition to shame.

## ABANDONED ON A BARGE

New York, June 9.—Visions of phantom ships loaded with provisions and sailing to his rescue and voices calling from the sea for him to join them while he lay abandoned and suffering from hunger on a deserted barge off the Florida reefs are described by John Munrad, 32 years old, a Norwegian sailor, in an affidavit filed in the United States district court in a suit for \$2,500 damages against the Florida East Coast Railway company.

Munrad, who was a captain in charge of three empty barges towed from Mobile by the tugboat Dauntless on their way to the extension work of the rail-

## Not in a Hurry

Caro, Mich., June 9. — J. Henry Wright, the Caro farmer, who journeyed to New York last winter to see Berthe Clafche, the girl who murdered the man who made her a white slave, was told of her sentence from two and one-half to five years for manslaughter. Wright took the news in a very matter-of-fact way, his sister having apparently warned, since he was formerly so anxious to get her free so that he could marry her.

"I was afraid Berthe might get from ten to twenty years," said he, "but Berthe is a good girl and will make time and be out of prison before long." When asked if he would go to New York to see the girl again he said, "No, not yet. That will depend on what word I get in the next letter from her, which will come soon."
